

## Preparing for difficulty returning home in disasters

If a disaster occurs while you're away from home, assess the situation before moving needlessly.

- Secure your own safety
- Confirm whether your family is home and safe or not.
  - ※ Establish a way to contact your family easily in advance
- Use your cell phone, internet etc. to gain accurate information on the situation
- calmly assess the situation around you (state of transport and roads) and decide what the appropriate action is.

## A request for businesses

If you own a business in Ebina City, please follow the below points to prepare for disasters.

- Securing safety for employees and customers
- Confirm and announce evacuation routes, evacuation centers, their location and how to reach them etc.
- Allowing employees with difficulty returning home to stay over at the business location.
- Secure enough food, water and other essentials for at least three days, ideally a week.

Use this pocket to store safety flags and other disaster prevention items given out by the city!
